THE ITALIAN STYLE DOOR

Dierre
YOUR HOME, YOUR LIFE

M A S S E L L O C O N T E M P O R A N E O

UN COLORE NON È MAI UGUALE A SE STESSO

Le porte Dierre possono anche essere personalizzate (a seconda del modello) con i colori RAL e NCS.

La cartella colori RAL è una scala normalizzata molto utilizzata in ambito produttivo, soprattutto nel settore delle finiture e delle vernici. È stata creata nel 1925 dal Reichsausschuss für Lieferbedingungen e i codici RAL sono composti da 4 cifre, raggruppati per migliaia in base alla famiglia di colori.

NCS (Natural Colour System®) è un sistema logico di ordinamento dei colori che si basa sul modo in cui questi sono percepiti ed è riconosciuto in campo internazionale come il linguaggio universale dei colori perché aiuta i professionisti del colore in tutto il mondo, con un linguaggio univoco che non lascia spazio a errori di comunicazione. Per mezzo del Sistema cromatico NCS, infatti, ogni possibile colore di superficie può essere descritto ed identificato con uno speciale codice (Notazione NCS).

Il Sistema NCS si fonda sui sei colori elementari e non associabili a livello percettivo ad alcun altro colore: bianco (W), nero (S), giallo (Y), rosso (R), blu (B) e verde (G). Le notazioni dei colori NCS si basano sulla somiglianza con questi sei colori elementari.

Il sistema RAL cataloga un insieme arbitrario e ristretto di sfumature ben definite e standardizzate, quello NCS invece fornisce un codice in grado di identificare univocamente i 10 milioni di tinte che l'occhio umano è in grado di percepire.

A COLOUR NEVER FULLY RESEMBLES ITSELF.

The Dierre doors can also be customized (depending on the model) with RAL and NCS colours.

The RAL colour card is a normalized scale very used in manufacturing, especially in the field of finishes and paints. It was created in 1925 by Reichsausschuss für Lieferbedingungen and the RAL codes are composed of 4 digits, grouped by thousands based on the colour group.

NCS (Natural Color System®) is a logical colour ordering system based on the way these are perceived and is internationally recognized as the universal language of colours as it helps colour professionals worldwide use a unique language that leaves no room for communication errors. In fact, by means of the NCS chromatic system every possible surface colour can be described and identified through a special code (NCS notation). The NCS System is based on the six elementary colours and cannot be associated to the perceptive level to any other colour: white (W), black (S), yellow (Y), red (R), blue (B) and green (G). The NCS colour notations are based on the similarity with these six elementary colours.

The RAL system orders an arbitrary and narrow set of well-defined and standardised shades, the NCS instead provides a code able to univocally identify the 10 million colours that the human eye is able to perceive.

Le informazioni presenti in questo catalogo possono subire variazioni.

The information contained in this catalogue may undergo variations.

The materials shown are a bare example: for the verification of colours please refer to the sample collection.

M A S S E L L O

C O N T E M P O R A N E O

Armonia e forza,
emozione ed espressione
naturalmente come il legno che vive,
bello da sfiorare e da guardare,
che cambia aspetto col passare
del tempo, con le venature
che assumono nuovi colori
e le sfumature che si trasformano
a seconda della luce.
La linea **Dierre Massello Contemporaneo**
di porte in legno massiccio
svela uno stile attuale
che si esprime con caratteri diversi,
precisi e fortemente distintivi.
Ogni porta con la propria identità,
le proprie piccole imperfezioni,
segni di una bellezza nobile e naturale.

*As living wood does,
harmony and strength,
emotion and expression are present,
beautiful to touch and to look at,
changing appearance
as time goes by,
with the grain taking on new colors
and shades that change
in relation to the light.*
*The **Massello Contemporaneo Diere**
line of doors reveals a modern style that
expresses with different, precise and
strong characters. Each door with its own
identity, its small imperfections,
signs of a noble and natural beauty.*

DE SIMONE

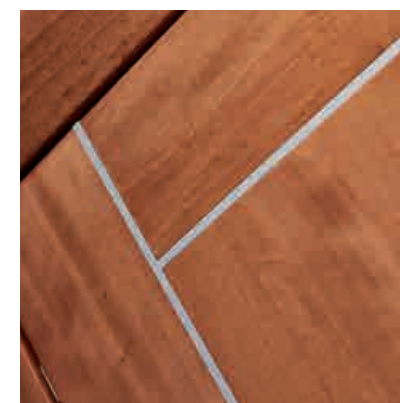

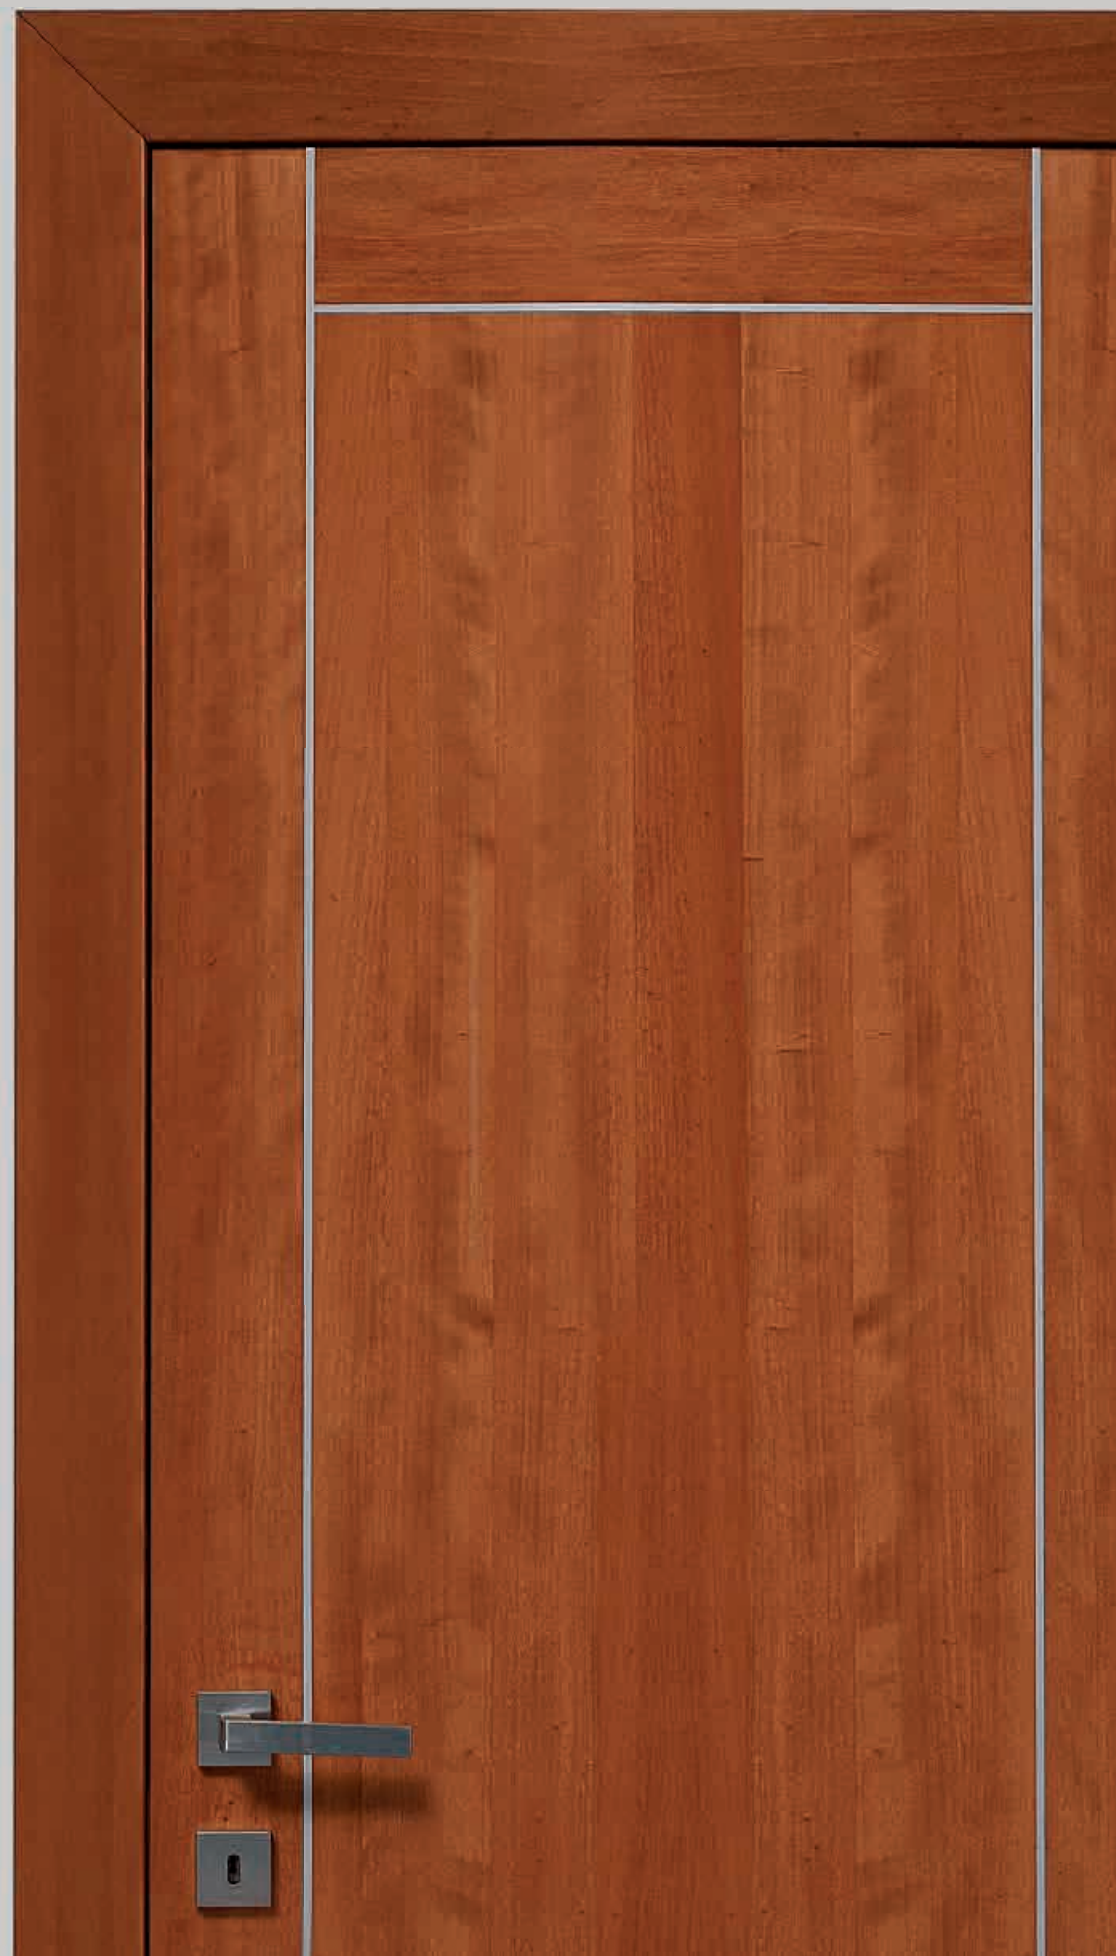

DE SIMONE

Un design moderno e ricercato, che le cerniere invisibili contribuiscono ad enfatizzare. Questa soluzione tecnica consente di avere, sul lato a tirare della porta, il battente perfettamente complanare ai coprifili, sottolineando l'estrema pulizia di linee della famiglia De Simone. Anta, telaio e coprifili sono realizzati interamente da legno massello in essenza dichiarata.

A modern and refined design, further emphasized by invisible hinges. This technical solution allows the door to be perfectly flush with the architraves on the pull side of the door, emphasizing the extreme neatness of the De Simone doors. Leaf, frame and architraves are entirely in the stated wood type.

De Simone 9 cilinwood

I pannelli sono di tipo complanare con spessore 44 mm, realizzati in truciolare di lino e massellati in essenza dichiarata.

The flush panels are 44 mm thick, made of flax chipboard and solid wood in the stated wood type.

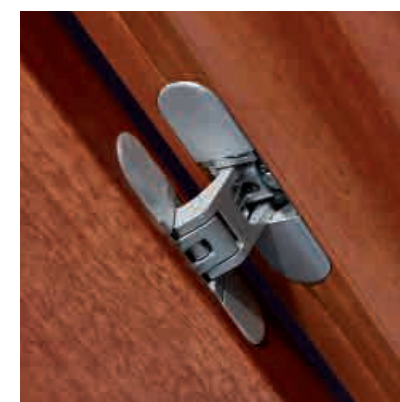

I coprifili sono forniti di serie nel modello Piatto con larghezza 70 mm e aletta ad incastro regolabile fino a 10 mm.

The architraves are supplied as standard in the 70 mm wide Piatto model and adjustable interlocking flap up to 10 mm.

Il battente è completo di serratura magnetica Patent con quadro 8 mm.

The leaf includes a Patent magnetic lock with 8 mm spindle.

La porta è ferrata con 3 cerniere regolabili di tipo a scomparsa.

The door is equipped with 3 adjustable concealed hinges.

FASHION

Fashion è la porta in legno massiccio a venatura orizzontale nella sua rappresentazione stilistica più evoluta e sofisticata. Il rigore geometrico e la sottrazione formale manifestano la purezza e l'energia del legno massiccio. Anta, telaio e coprifili sono realizzati interamente da legno massello in essenza dichiarata. A catalogo, inserti in ottone lucido, satinati nero, acciaio satinato e con uno e due traversi.

Fashion is the solid wood door with horizontal grain in its most advanced and sophisticated stylistic representation. The geometric strictness and formal abduction highlight the purity and energy of solid wood. Leaf, frame and architraves are entirely made in the stated solid wood type. Also available: inserts in polished brass, satin black, satin steel and with one and two crosspieces.

Fashion 3 rovere orzo spazzolato stracciato
Fashion 3 ragged effect barley oak

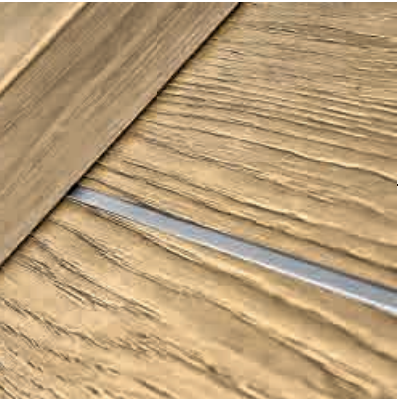

Il telaio è completo di guarnizione in gomma e contro serratura ottonata con gusci copriscasso in ottone.

The frame is complete with rubber seal and brass counter lock with brass casing covers.

I coprifili sono forniti di serie nel modello Complanare con larghezza 106 mm e aletta ad incastro regolabile fino a 10 mm.

The architraves are supplied as standard in the 106 mm wide Complanare model and adjustable interlocking flap up to 10 mm.

I pannelli di spessore 29,8 mm sono realizzati in multistrato marino impiallacciato in essenza in entrambi i lati con venatura orizzontale.

The 29.8 mm thick panels are made in marine veneered plywood on both sides with horizontal grain.

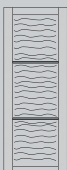

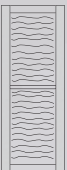

Serratura magnetica Patent con quadro 8 mm.

Patent magnetic lock with 8 mm spindle.

GLAMOUR

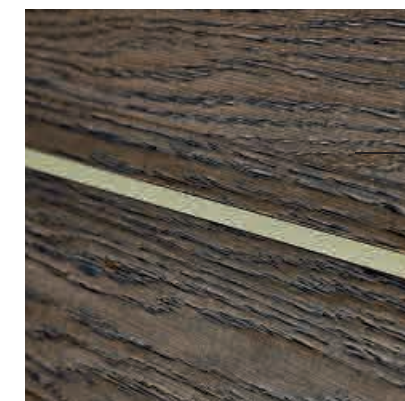

GLAMOUR

Eleganza ed emozione allo stato puro.
In Glamour, il legno, le sue venature,
i nodi e le sfumature trovano
una nuova raffinatissima espressione.
Come in Stone, il design rigoroso,
con pannello centrale portante in legno
massiccio, celebra il pregio della materia.
Anta, telaio e coprifili sono realizzati interamente
da legno massello in essenza dichiarata.
Disponibile anche nelle varianti finestrata, con
inserti in ottone lucido o cromo satinato.

*True elegance and emotion.
Glamor with its wood, grain,
knots and shades reveals a new refined
expression. As in Stone, the rigorous design,
with a central solid wood load-bearing panel,
celebrates the quality of the material.
Leaf, frame and architraves are entirely
made in the stated solid wood type.
Also available in the glazed versions,
with inserts in polished brass or satin chrome.*

Glamour 3 rovere zenzero spazzolato stracciato
Glamour 3 ragged effect brushed ginger oak

Tutti gli elementi portanti dell'anta che è spessa 40 mm
sono realizzati con due strati di legno massello.
Gli inserti lineari in ottone lucido
rappresentano la caratteristica di Glamour 2.

*All the load-bearing elements of the 40 mm
thick door are made with two solid wood layers.
The linear inserts in polished brass represent
the feature of Glamor 2.*

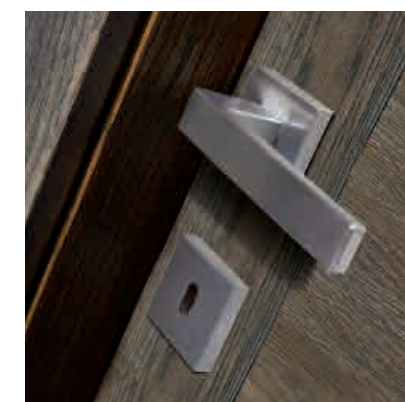

I pannelli sono coplanari con la struttura dell'anta
e l'orientamento della venatura è orizzontale.

*The panels are coplanar with the structure
of the leaf and the orientation of the grain is horizontal.*

La porta è ferrata con 3 cerniere tipo Anuba
doppio gambo regolabili complete
di copricerniere in ottone lucido (vedi foto a lato)
oppure con cerniere a scomparsa.

*The door is equipped with 3 adjustable
double-stem Anuba hinges complete
with polished brass hinge covers.*

PALADINO

Una linea attuale e disinvolta per una dimensione domestica nelle sue molteplici varianti con bugna, con foderina, finestrata e con battente in vetro. Il profilo tondeggiante, che ricorre su tutti gli elementi della porta Paladino, accentua il valore tattile sensoriale del legno massiccio e il senso di protezione che ne deriva. Anta, telaio e coprifili sono realizzati interamente da legno massello in essenza dichiarata.

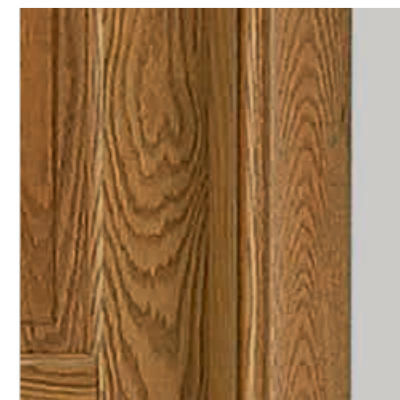

A modern and casual line for a domestic dimension in its many variations with raised panel, with flat panel, glazed and as glass door. The rounded profile, which repeats on all the items of the Paladino door, further increases the sensorial tactile value of solid wood and the feeling of protection deriving from it. Door, frame and architraves are entirely made in the stated solid wood type.

Paladino 14 rovere mielato
Paladino 14 honey stained oak

Anta di spessore 44 mm: tutti gli elementi portanti sono realizzati con due strati di legno massello incollati con bironi di giunzione ed uniti in controsagoma al fine di conferire alla porta una migliore stabilità e durata.

44 mm thick door: all load-bearing items are made with two solid wood layers glued with joining pins and joined in counter-shape in order to give the door greater stability and durability.

I coprifili sono forniti di serie nel modello Raggiato con larghezza 70 mm e aletta ad incastro regolabile fino a 10 mm.

The architraves are supplied as standard in the Raggiato model with 70 mm width and interlocking flap adjustable up to 10 mm.

Il battente è completo di serratura magnetica Patent con quadro 8 mm.

The leaf includes a Patent magnetic lock with 8 mm spindle.

Cerniera di tipo Anuba.

Anuba hinge.

RICCI

Collezione di gusto contemporaneo ed eclettico con contributi stilistici diversi: dal coprifilo di suggestione più classica, agli inserti in acciaio satinato decisamente moderni. Con Ricci la porta diventa un esclusivo elemento d'arredo, capace di esaltare con originalità ed eleganza ambienti e atmosfere differenti. Anta, telaio e coprifili sono realizzati interamente da legno massello in essenza dichiarata.

A collection with a contemporary and eclectic zest with different stylistic blends: from the more classical architrave to the decidedly modern satin steel inserts. With Ricci the door becomes an exclusive piece of furniture, capable of enhancing different environments and atmospheres with originality and elegance. Leaf, frame and architraves are entirely made in the stated solid wood types.

Ricci 11 alder tinto noce
Ricci 11 walnut stained alder

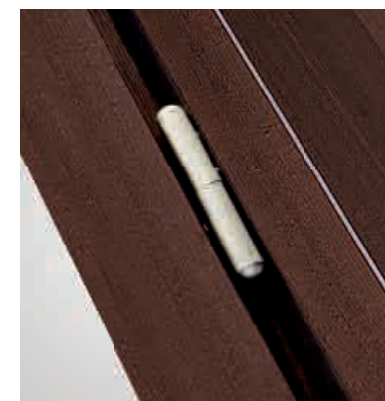

Anta di spessore 44 mm: tutti gli elementi portanti sono realizzati con due strati di legno massello incollati con bironi di giunzione ed uniti in controsagoma al fine di conferire alla porta una migliore stabilità e durata.

44 mm thick door: all load-bearing items are made with two solid wood layers glued with joining pins and joined in counter-shape in order to give the door greater stability and durability.

I coprifili sono forniti di serie nel modello Raggiato con larghezza 70 mm e aletta ad incastro regolabile fino a 10 mm.

The architraves are supplied as standard in the Raggiato model with 70 mm width and interlocking flap adjustable up to 10 mm.

La porta è ferrata con 3 cerniere tipo Anuba doppio gambo regolabili complete di copricerniere in ottone lucido.

The door is equipped with 3 adjustable double-stem Anuba hinges complete with polished brass hinge covers.

Serratura magnetica Patent con quadro 8 mm.
